Start of Week:

   I.   This week I will accomplish:
        I will replicate the matter.js slingshot demo using the canvas 2d rendering context.

   II.   In general I am having problems with the following:
        Understanding how constraints work and what composites are.

   III.   I need help with the following:
        I will probably need help with getting the slingshot spring to render properly without the built in matter.js renderer.
